

**JABRA PERFORM 75**

# Hands-free, headset built for retail shiftwork

**PUSH-TO-TALK (PTT) INTEGRATION**

In the retail world, every second counts. Which means teams need to be able to communicate quickly and handsfree. With Perform 75, associates can use Push-to-Talk (PTT) to communicate without having to reach for their handheld device. So questions, queries and problems get solved fast and hands-free.

**UNIVERSALLY COMPATIBLE**

Besides phone calls, Perform 75 integrates with leading PTT and Voice-Directed Picking (VDP) software, popular UC platforms like Microsoft Teams and Zoom, as well as AI Agents retailers might want to introduce in the future.

**BUILT FOR SHIFTWORK**

Thanks to its modular, easy-to-use design, starting a shift has never been simpler. Associates can just grab a boom arm, connect a battery, attach to their headband (or neckband) then pair it with their handheld device. And with a hot-swappable battery, up to 20 hours of call time (including up to 50 hours of PTT time), and a 10-bay charger – this headset's all about 100% uptime.

**COMFORT & FLEXIBILITY**

Perform 75 can be worn on either ear and is comfortable to wear from the first hour to the last. Featuring cushioned earcups, a lightweight design and multiple wearing styles (behind the neck or over the head), associates can find the fit that works for them.

**99% NOISE CANCELLATION**

The Perform 75 is engineered with industry-leading microphone noise cancellation to block out 99% of background noise. Whether it's the sound of warehouse machinery or the bustle of the shop floor – associates are heard clearly the first time, every time.

**DESIGNED FOR DURABILITY**

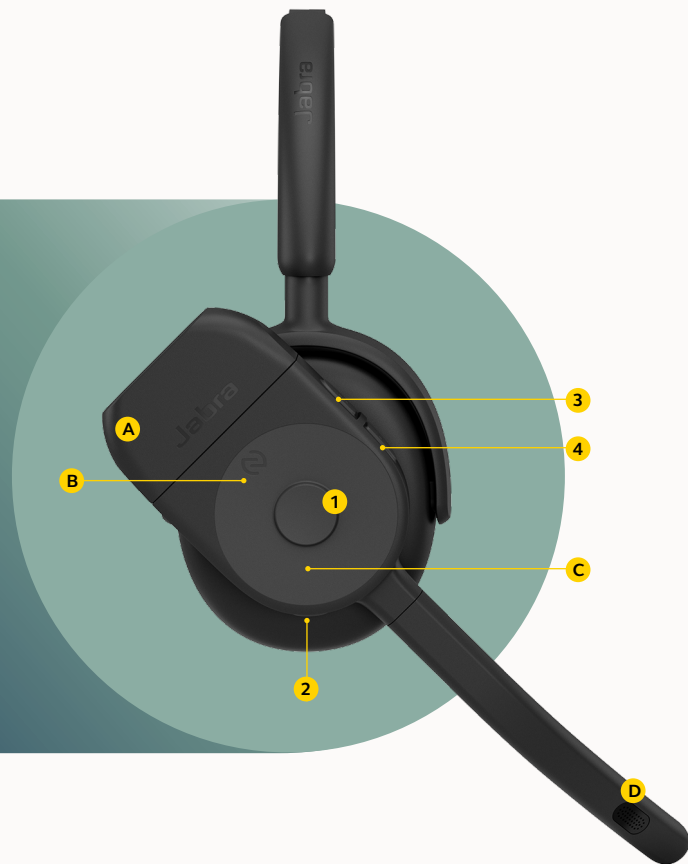

With a robust IP65 rating against dust and water, this high-performance headset is built to withstand the toughest environments. From walk-in freezers to dry storage, the Perform 75 can be used in extreme temperatures – from 60°C all the way down to -30°C. And because we know how demanding busy shifts can be, we've drop-tested it to 2.1m too.

## HOW TO PAIR

Double press the multifunction button (2) then go to the Bluetooth® menu of your device or use the NFC zone (B)

	Lift up the boom up to mute
	Pull the boom down to unmute

## HOW TO CONNECT AND USE

### 1 CUSTOMIZABLE BUTTON

	Push-to-Talk (PTT)
	Mute (in a call)
	Voice control (standby)

### 2 MULTIFUNCTION BUTTON

	Power on/off
	Answer/end/reject call
	Voice assistant
	Bluetooth® pairing (double press)

### 3 VOLUME UP

	Volume up
--	-----------

### 4 VOLUME DOWN

	Volume down
--	-------------

<b>A</b>	Replacable battery
<b>B</b>	Near-field communication (NFC) zone
<b>C</b>	Status LED
<b>D</b>	Microphone

## FEATURES

## BENEFITS

<b>Audio</b>	99% noise-cancelling microphone	Blocks out background noise even in loud retail operations environments, for clear communication
	HD Voice	Great sound quality to hear coworkers clearly
	Built-in intelligent microphones with speech recognition	Associates can be heard and understood immediately by their colleagues or voice driven applications
	A2DP streaming	Stream media content
	Audio is optimized for speech	Making it easier to hear and causing less fatigue over time
	Unique ear cushion design that maximizes passive noise cancellation and Rx performance	Clearly hear communication from coworkers and systems, even in noisy environments
<b>Connectivity</b>	Bluetooth® 5.3	Supports the latest version of Bluetooth for the best audio quality and battery efficiency
	Near-Field Communication (NFC)	Easily pair and unpair with handheld devices, for smooth shift transitions
	Up to 300ft/100m wireless range	Minimizes loss of connection and provides flexibility for workers
	QR Code Pairing (requires third-party software)	Enables easy pairing in environments that don't allow NFC
<b>Ease of use</b>	Up to 50 hours Push-to-Talk time*	It's possible to use Push-to-Talk throughout a shift, on a single charge
	Up to 20 hours continuous call time	Make calls throughout an entire shift on a single charge
	Customizable button on the headset	Can be integrated with popular Push-to-Talk (PTT) applications so workers can communicate via their headset
	Face2Face mode	It's easy to mute all audio (including incoming audio from Push-to-Talk channels) to stay focused on the customer
	USB-C charging	Supports recharging the headset without the use of a charging bay
<b>Compatibility</b>	MS Teams Walkie Talkie, Zebra PTT Pro and other popular voice-led applications	Works with leading communication platforms out of the box
<b>Fit &amp; Comfort</b>	Adjustable padded headband (OTH) wearing style	For all-day comfort
	Optional adjustable padded neckband (BTN) wearing style	Suits personal preference, for all day comfort
	Place identification (asset) tags on both headband and battery	For quick and easy identification
<b>Software &amp; Apps</b>	Jabra Direct & Jabra Xpress	Update, manage, and configure headsets
<b>Services</b>	Jabra Warranty+**	Protect your investment with extended warranty, for additional peace of mind
<b>Hygiene &amp; Durability</b>	Easy-to-clean design	For quick and easy sanitization between users
	Strong external shell and buttons	For protection from accidental drops
	IP65	Built to withstand exposure to moisture and dust
	Operates in -30°C to 60°C	Built to work in challenging retail operations environments

\*Assumes normal levels of Push-to-Talk throughout the day, rather than continuous usage.

\*\*Jabra Warranty+ is only available for business end-customers and must be purchased at the time of product purchase through eligible resellers. Reach out to your Jabra Account Manager or Jabra Support to find out which enterprise products and countries are covered by Jabra Warranty+.
